### Education

Ocean County College | NJ, 08754 | 09/2019 - 03/2023

- Associates degree in Computer Science. 3.8 GPA

DigitalCrafts | Full-time Software Development Coding Bootcamp | 07/2022 - 11/2022

- Full-time Web Development training program that prepares students to professionally build modern websites independently and on a team. This course trains students in git and github version control, CLI, databases, how to program in Python, JavaScript, CSS, and HTML. Advanced JavaScript development, frameworks, and libraries such as Node.js, RESTful APIs, Express.js, passport authentication, React, Redux and more are also thoroughly covered in the program.

### Professional Work Experience

Webever Technologies | Full Stack Web Developer | February 2023 - Present | Mays Landing, NJ

- Exceptional member of the Web Development team at Webever Technologies. Professionally developed websites for clients and subsidiary companies of Webever technologies such as <https://www.iitnj.edu/>, <https://www.axelsthrowhouse.com/>, <https://www.glammeppmu.com/>, and <https://www.idealdiscountclub.com/>.
- Project Management on multiple projects that Webever was hired to complete. Assigned and followed up tasks to team members using Webever's custom CRM, maintained relationships with clients, and tracked progress on all current projects. Other responsibilities included writing up site maps for upcoming projects, and clarifying MVP's and project goals to developers assigned to the project.
- Worked as an instructor in Full Stack Web development, teaching students enrolled in the class starting with programming fundamentals, best practices, and datatypes, then working up to more difficult topics such as asynchronous programming, JavaScript frameworks and libraries, API's, and PHP/ Databases for the backend.
- Utilizing third party services to find potential clients (this included searching for potential projects that were within the scope of Webever's capabilities, writing up proposals for each potential client, maintaining a relationship with client if they decided to work with us for their application, and keeping track of the submitted proposals with a shared spreadsheet.)

Market Source | Target-Tech Sales Representative | May 2021 – October 2021 | Howell, NJ

- Engaging with guests in Target Stores around the electronics section to generate excitement and increase sales for post-paid phones, prepaid phones, and smartphone accessories. Helped guests with technical issues, such as networking, viruses, memory backups, bluetooth / cell connectivity and other phone/computer related questions. Top performing sales representative at the Howell location.
